Axil Scientific
YOUR RESEARCH IS OUR BUSINESS

MCE MedChemExpress

EXCLUSIVELY FROM AXIL SCIENTIFIC

EXTRA 5% OFF

YOUR MCE PURCHASE

Enjoy additional savings on top of your MCE order.

Promotion valid until 31st Dec 2026

01 COMPOUND SCREENING LIBRARIES

- Bioactive Compound Libraries (BCL)
- Diversity Compound Libraries (DCL)
- High-Throughput Screening Libraries (HTSL)
- Fragment Libraries (FL)
- DNA-Encoded Compound Libraries (DEL)

02 VIRTUAL SCREENING

- Professional Drug Design Team
- 26 Million+ Compounds
- 2D/3D Molecular Docking Representation (SCI)

03 SCREENING SERVICES

- Drug Screening Services
- Stable and Efficient AS-MS Screening
- 30+ Ion Channel Stable Cell Lines
- 100+ GPCR Stable Cell Lines
- 400+ Kinase Profiles
- 120+ Tumor Cell Lines
- DEL Screening

04 LEAD COMPOUND OPTIMIZATION

- Search and Supply of Structure Analogs
- Custom Synthesis
- Analytical Development & Quality Control

CUSTOMIZE YOUR LIBRARIES

MCE® MedChemExpress

Recombinant Proteins

MedChemExpress (MCE) offers a comprehensive collection of recombinant proteins with excellent lot-to-lot consistency, superior activity and low endotoxin level. MedChemExpress (MCE) recombinant proteins include: cytokines, enzymes, growth factors, hormones, receptors, transcription factors, antibody fragments, etc. They are often essential for supporting cell growth, stimulating cell signaling pathways, triggering or inhibiting cell differentiation; and are useful tools for elucidating protein structure and function, understanding disease onset and progression, and validating pharmaceutical targets.

Superior Bioactivity
Validated by relevant in vitro or in vivo assays

Broad Categories
Including cytokines, receptors, enzymes, etc.

High Purity
Greater than 95%

Custom Protein Service
One-stop service from gene to protein

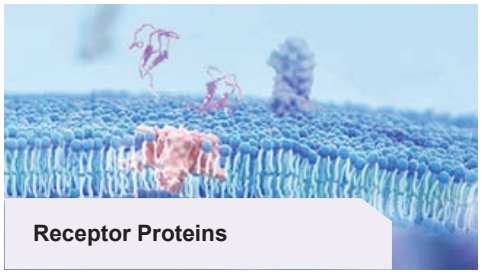

Cytokines and Growth Factors

Immune Checkpoint Proteins

CAR-T Related Proteins

CD Antigens

Fc Receptors

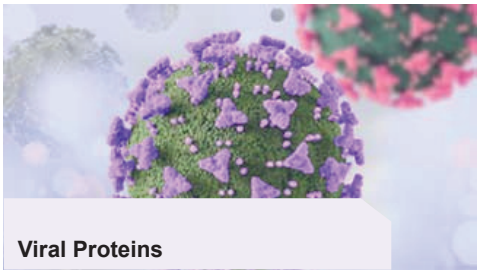

Receptor Proteins

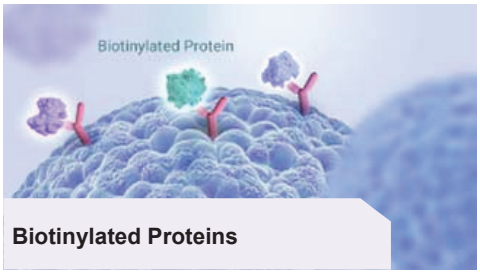

Enzymes & Regulators

Complement System

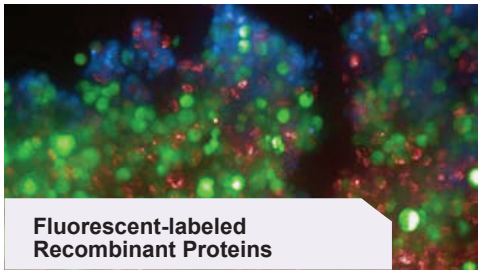

Ubiquitin Related Proteins

Viral Proteins

Biotinylated Proteins

Fluorescent-labeled Recombinant Proteins

GMP-grade Proteins

Animal-free Recombinant Proteins

Others
